REASONS FOR ALLOWANCE

Remark

- This Office Action is in response to applicant's appeal brief filed on January 27, 2006, which has been entered into file.
- Claims 5-21 remain pending in this application.

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: in view of the arguments presented in the appeal brief and prior art references considered, none has disclosed an *autostereoscopic display system* having a *lenticular screen* in juxtaposition with a display screen wherein the lenticular screen having a *closed chamber* formed over it and a *fluid reservoir* in communication with the *closed chamber* for *introducing and removing* an optically clear fluid from the chamber. The removing and introducing the clear optical fluid activates and deactivates the lenticular screen, (as specifically claimed in claim 18), for switching the autostereoscopic image display system between stereoscopic viewing mode and planar viewing mode.

US parent issued to **Battersby (PN. 6,069,650)** teaches an autostereoscopic display apparatus that is capable being switched between stereoscopic viewing mode and planar viewing mode by activating and deactivating a lenticular screen via electrical driving means. But it does not teach the lenticular screen is activated and deactivated by removing and introducing optically clear fluid in a chamber formed on the lenticular screen.

US patent issued to **Stoner (PN. 6,288,846)** teaches switchable optical device wherein the optical element is activated to have lens function by introducing optically clear fluid into a chamber of the optical element and deactivated by removing the optically clear fluid. However this reference does not teach the optical element is in juxtaposition with a display screen within an autostereoscopic display device and

Art Unit: 2872

does not teach to allow the autostereoscopic display system to be switched between stereoscopic viewing mode and planar viewing mode.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
